

# A CAREER WITH PURPOSE

## Sustainability at Sentinel

Hello and welcome,

At Sentinel Property Group (SPG), sustainability isn't just a buzzword—it's a business imperative and a shared responsibility. I want to share a little about how sustainability drives not only what we do, but how we do it. For me, this goes beyond policies or projects—it's about people, purpose, and a vision for the future that every team member can feel proud to contribute to.

Moreover, we are honoured to share that Sentinel has been nominated for inclusion on the United Nations' Sustainable Development Goals (SDGs) Actions Platform (2023). This recognition further reinforces our commitment to sustainability and our role in driving positive change.

**At Sentinel Property Group, we are committed to supporting the United Nations Sustainable Development Goals (SDGs).**

We're not just managing properties; we're creating spaces and systems that leave a positive mark on our planet. One example I'm particularly proud of is our installation of over 8,240 solar panels at Caneland Central. That's not just a milestone—it's proof of what can happen when we commit to audacious goals and deliver.

But sustainability at Sentinel goes beyond renewable energy. It's about embedding our core values into everything we do:

- **Attention to detail:** Assume nothing, Believe no-one, and Check everything before making decisions.
- **Accountability:** If it is to be, it is up to me. Be accountable for making it happen.
- **Honesty:** Operate honestly, ethically and act with integrity.
- **Opportunistic:** Be strategic and a forward thinker. Seek and create opportunities that others wouldn't think of.
- **Owner's eye:** Work as though the business is your own and operate how an owner would operate.

To me, what makes Sentinel special is the same thing that makes a great business or team: its people. We're a group of passionate, driven individuals who thrive on opportunities to do things better, smarter, and more sustainably. And that's where you come in.

If you're reading this as a potential new T.E.A.M. member, I hope you see an opportunity here—not just to build a career, but to be part of something bigger. At Sentinel, you'll find a culture that encourages bold ideas, celebrates success, and sees challenges as chances to grow.

Sustainability isn't just our responsibility; it's our legacy. It's what will set us apart today and define us in the years to come. Together, I believe we can create a future where business doesn't just coexist with the environment—it thrives alongside it.

So, if you're ready to bring your passion, creativity, and commitment to the table, we'd love to have you join us on this journey.

Looking forward to meeting you,  
Michael
